

NAME

ppdftdso - external default pattern directory search order

SYNOPSIS

```
#include <ppsubs.h>      /* pattern definitions and struct */
```

```
PPATDIR ppdftdso[] = {      /* Default Directory Search order array */
    PPKEYDIR,
    PPUSRDIR,
    PPCOMPATDIR,
    PPUSRPATDIR,
    PPLASTDIR
};
```

DESCRIPTION

This is the Pattern Package default directory search order. It is used by several of the pattern library subroutines when a user defined directory search order is not given.
